Count Mixed Coins Anywhere, Anytime

Mag II Series 100 COIN SORTERS

The Model 100 offers sophisticated electronics, automatic motor shut-off, a large capacity inspection tray, and a compact footprint. Batch subtotals and grand totals are accumulated for each of the five coin denominations. The Model 110 offers several more advanced features including memory back-up, half and full bag stops, drawer full and jam detection, printer interface port and RS232 interface capability.

Model 100 - Tabletop Model

complete with a security stand.

The 100 Series is flexible. Depending upon your specific application, the unit can be configured as a compact countertop unit with coin drawers, or as a full bagging version

With our RTR (Register Till Refill) option, fast food operators, convenience store managers, grocers, and other retailers can easily count and recirculate coin in cash register tills.

Golden Dollar**Compatible**

Model 110 (shown with Locking Stand and Side Shelf Options)
