## **Magner SIRIO 15 Automatic Coin Wrapper**

The compact SIRIO 15 Automatic Wrapper was designed for ease of use in low or moderate volume coin wrapping applications.

Dependable 15 wrap per minute performance, simplified operation, and easy denomination changeover add up to greater convenience and productivity with a low level of operator intervention.

The SIRIO 15 is a time-saving alternative to manual coin packaging equipment or automatic coin wrappers utilizing older technology.

Offering solid performance along with proven reliability, the Magner SIRIO 15 is clearly the value leader in convenience coin wrapping applications.

### **SIRIO 15 features include -**

- Simple adjustments for denomination changeover
- Coin off-sort/reject function
- Easy paper loading
- Highly jam-resistant coin track design
- Microprocessor controlled operation
- Easy internal access for routine service
- LCD Display and Numeric Keypad
- 3,000 coin input hopper capacity
- Paper table for 500 or 1000 foot wrapper rolls
