

# M-420 BATCH ENCODER SERIES

## REDUCE YOUR CHECK PROCESSING COSTS

When considering ways to reduce check processing costs, it is important to select hardware which is tailored to meet your specific processing requirements. The M-420 Series includes two models:

- **M-425** This encoder with a built-in autofeeder is used widely in grocery stores and other retail and financial batch applications.
- **M-426** Featuring both the production handfeed and built-in autofeed capability, this encoder can easily change from one mode to another with a single key stroke, providing flexibility when used by multiple operators.

**MAVERICK** International

## Compact and Adaptable

The small footprint of the Maverick Encoder allows the units to fit into any work space. The Encoder and the Controller module can be easily moved to accommodate any work environment.

## Fast

Designed for maximum throughput, the Maverick Encoder can encode at a rate of 2500 documents per hour.

## Autofeed/Handfeed Capability

Depending upon processing requirements and/or preference, the M-420 Series offers two models of encoder:

	M-425	M-426
Handfeed		■
Autofeed	■	■
Endorser (optional)	■	■

## Integrated Programmable Endorser

Each of the two models of the M-420 Series encoder can be configured with an optional integrated endorser. Using Ink Jet Technology, messages can be formatted in either full or condensed characters, or in a 2-line condensed option. Up to 10 different endorsement lines can be stored at any one time and accessed through the keyboard. The M-420 Series Endorser meets Regulation CC requirements for "Bank of First Deposit" endorsement.

## Additional Features

- Exception Field Encode
- Full Field Encode
- Repeat Encode
- Acct. # CDV/CDG
- Proof of Deposit
- Batch Recall
- Register/Teller Totals
- Clean Batch Listings
- Adding Machine Mode

## SPECIFICATIONS

**Dimensions:** Length: 12.5 inches (31.75 cm)  
Width: 8.0 inches (20.32 cm)  
Height: 3.75 inches ( 9.53 cm)

**CONTROLLER:**  
**Dimensions:** Length: 11.5 inches (29.21 cm)  
Width: 8.0 inches (20.32 cm)  
Height: 3.0 inches ( 7.62 cm)

**Weight:** 3.5 pounds (1.59 kg)

**Keys:** 37 programmable functions

**Display:** 20 character, 2-line, alphanumeric, dot matrix, super twist, backlit LCD

**Printer:** 24 column dot matrix

**Power:** +12 VDC powered from encoder

**Interface:** 2 ports: Serial RS232/RS422/RS485/TTL/  
20ma Current Loop

**ENCODER UNIT:**  
**Dimensions:** Length: 13.5 inches (34.29 cm)  
Width: 15.0 inches (38.10 cm)  
Height: 5.0 inches (12.70 cm)

**Weight:** 12.5 pounds (5.67 kg)

**Ribbon:** Cartridge with average yield of 100,000+ characters

**Power:** 120/240 VAC external power pack

**Fonts:** E13B

## Nationwide Sales and Customer Support

The full line of Maverick MICR Encoders are sold and serviced nationwide by a highly trained and professional network of Maverick Distributors. For more information about the Maverick M-420 Encoder and other Maverick products, please contact your local authorized Maverick Distributor or the Maverick corporate office.
