The TACC III combines the TACC IIa platform with expanded audit trail and reporting through an all new PIN based tracking system. The touchscreen interface allows managers and clerks to quickly record deposits and make change while keeping an accurate count on each day's transactions. Customizeable reports allow for detailed tracking of cash amounts vended, drops, cash in system, and more. This proven TACC platform, built on the power of the Windows Operating System, will allow your business better cash security, streamlined reporting and time saved during closeouts.
